

BRITISH ENDURANCE CHAMPIONSHIP**Updated Balance of Performance decisions for Round 5**

Due to the current unavailability of Porsche homologated Ballast Box: car 116 will run to the following amended BoP for this round. We will be utilizing the Pitstop additional time to balance the car against their expected performance with the previous published BoP. The additional pitstop time will apply to each of the two mandatory pitstops.

With the addition of the McLaren Artura GT4 to the entry list the following Balance of Performance will be applied.

Cars built to GT4 specification	Minimum Weight	Minimum Ride Height	Maximum BHP at Flywheel	Minimum Additional Pitstop Time	Notes
McLaren Artura GT4	1350	50	See Power Map		Map SRO Restricted 4
Porsche 718 GT4 RS	1400 1350	50	See Restrictor	15 seconds per pitstop	Restrictor 53.7mm
